

LANDSCAPE ARCHITECTS

Partnering with Magical Bridge

Magical Bridge partners with landscape architects and site planners to integrate our award-winning playground design and brand reputation into your proposals, ensuring alignment with project goals and boosting probability of being selected.

HOW WE CAN HELP

RFP Collaboration – We work with landscape architects and site planners to integrate Magical Bridge Playground into proposals, from the written RFP to the interview process.

Design & Consultation – Our team provides design guidance to seamlessly incorporate the elements that make Magical Bridge Playgrounds uniquely welcoming and inclusive.

Fundraising and Sponsorship – We help identify funding sources and provide strategies to engage donors, ensuring that your project has the financial support it needs.

Implementation Support – We offer ongoing consultation throughout the project, from design refinement and community input meetings to final construction, ensuring all stakeholders benefit from the Magical Bridge experience.

Programming Launch – A playground is more than just its physical space—it's a hub for community connection. We help design and launch thoughtful programming for all ages to activate the space from day one and sustain long-term impact.

Community Engagement – During planning and construction, we work with local community groups to raise awareness and garner feedback on the project. After opening, our Kindness Ambassador™ program supports the recruitment of local volunteers to host events and promote kindness on and off the playground.

MAGICAL BRIDGE SOLUTIONS FOR EVERY PROJECT TYPE AND SIZE

Master Planned Communities

Retail Centers

Mixed Use Developments

Affordable Housing

Residential Development

Resort and Hospitality
